

**For excellent adhesive strength use only  
Pufas Range of Wallpaper Adhesives and Paste.**

K2 Wall Decor Solutions strongly recommends using only the Glutolin & Decotric range of wallpaper adhesives from Pufas, Europe's leading adhesive company from Germany, for pasting its range of wallpapers.

It's a common practice for people to spend a lot of time selecting designs & quality of wallpapers. But the most important thing often neglected or ignored is the wallpaper adhesives and paste, which keeps your wallpaper mounted on the wall for a longer time.

At Pufas, we believe that good products become great by using the right ingredients, including wallpaper adhesives and paste. Choosing the right wallpaper adhesives and paste will depend on the surface and type of wallpaper you are using. Here is an easy guide to making the right choice.

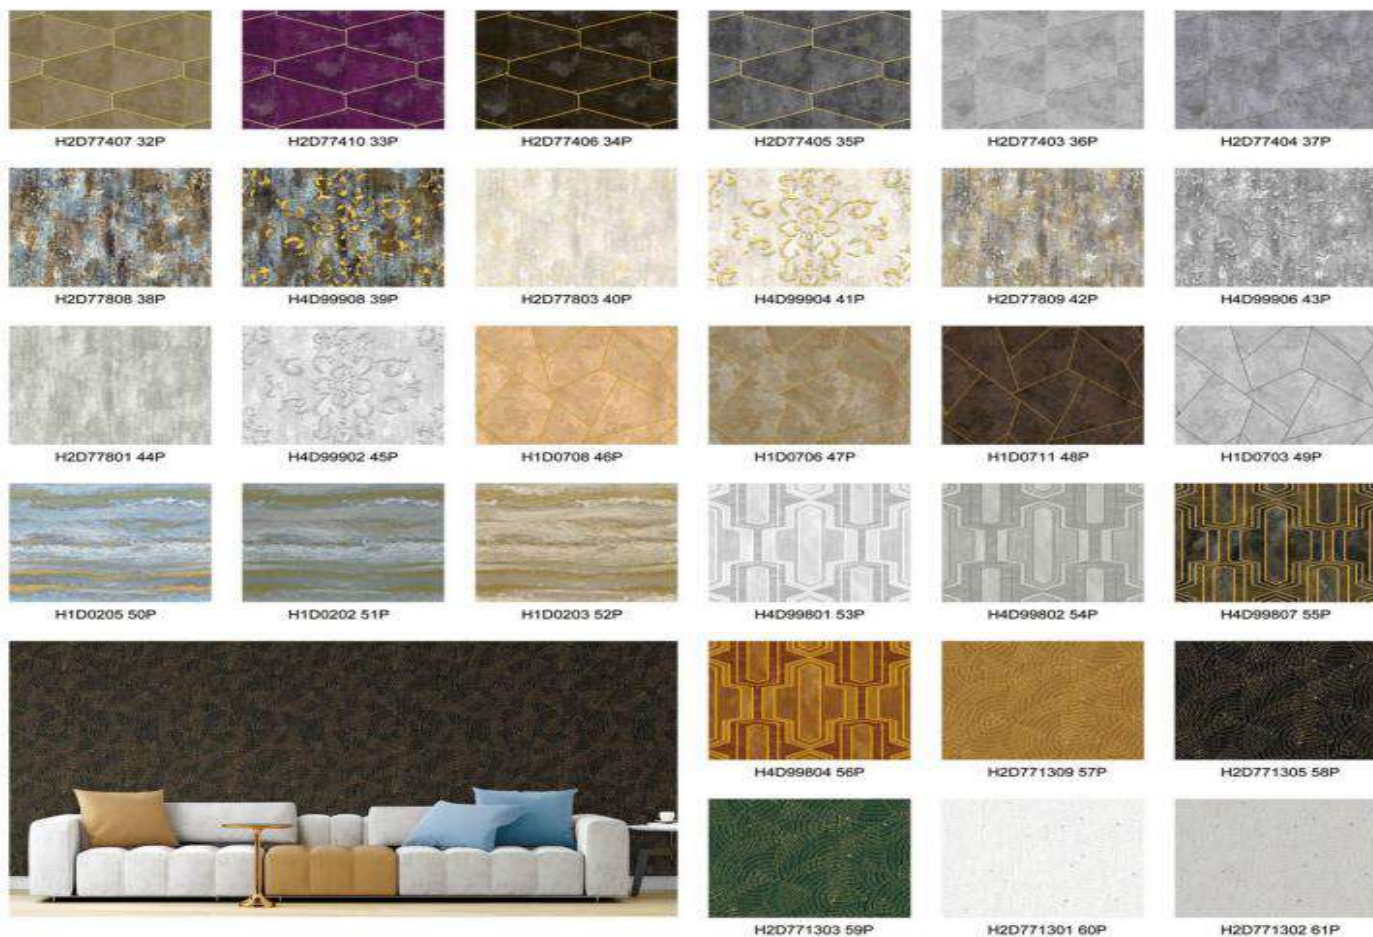

CHART		Power Universal Paste (dry mix)	Glutolin 10 (Ready Mix Paste)	Glutolin K10 Ultra performance (dry mix)	Glutolin 177V Gold Special (dry mix)	Glutolin 800 Premium (Ready Mix Paste)
WALLCOVERINGS	For paper-backed and heavy wallpapers, also for dry-strippable wallpapers and non-woven.	Best	Best			
	For smooth and embossed non-woven wallpapers and for digital prints for vinyl, embossed and textured wallpapers high initial adhesion and bond strength	Good	Best			
	For woodchip wallpaper, renovation and glassfibre fabrics specially suited for digital-print wallpapers up to 350 g/m <sup>2</sup> also suitable for problematic substrates and new plasterwork			Best	Best	Best
	Special wallpaper adhesive for hanging embossed, woodchip, vinyl and non-woven wallpapers as well as heavy wallpapers, special wall covering adhesive for virtually all wallpapers and wall coverings – e.g. heavy designer non-woven, textile, vinyl, embossed and metal wallpapers. Ideal for dark and matt wall coverings. Also suitable for fiber based acoustical panels.			Better	Best	Best
FEATURES	Moisture Resistance	Moderate	Moderate	High	Very High	Very High
	Reinforced Resin (High Bond Strength)	5%	5%	20%	30%	30%

\*Kindly refer to manufacture instruction regarding the dilution ratio for desired result. Pufas products does not recommend the use of any product in an installation that does not meet a class K fire rating or applicable codes. If a Pufas product is used to hang a layer wallpaper over an existing wallpaper, it is unlikely to meet these standards. Testing by a certified laboratory may be required.

- The Pufas Advantage**
- The proportion of methylcellulose is equal to or higher than starch resulting in excellent adhesive strength.
  - Special additives for avoiding moulds growth.
  - Quality synthetic resins are added to increase durability & extra bonding.
  - 100% Made in Germany.
